

LET'S GO ON A LEAF HUNT!

How many different plants grow at Bullington Gardens?

Did you know that scientists and gardeners can identify some plants just by looking at a leaf? Leaves come in lots of different shapes, sizes, and colors. Many plants have their own unique kinds of leaves!

When you see a leaf shape that matches a picture below, cross it off or color it in!
How many different leaves can you find? Can you find a leaf shape that isn't shown here?

Please help us take care of the Gardens by not picking or taking the things you find.
